

Availability and distribution

IZERVAY is available to order through your preferred distributor

Product description

IZERVAY is a clear to slightly opalescent, colorless to slightly yellow solution in a single-dose vial.

NDC

10-digit: 82829-002-01

11-digit: 82829-0002-01

Package information

IZERVAY is available as a single unit, including:

- One single-dose vial
- One sterile 5-micron filter needle
- One sterile 1-mL Luer Lock syringe with a 0.1-mL dose mark

Storage information

Unopened IZERVAY vials can remain outside of the refrigerator for up to 24 hours.

Once received, store IZERVAY in the refrigerator at temperatures between 2°C and 8°C (36°F and 46°F). It is stable at room temperature for up to 24 hours. Ensure that the injection is given immediately after preparation of the dose.
